NAUVOO NEIGHBOR, EXTRA;--Friday Morning, (5 o'clock,) June 21, 1844.

67- We wish to correct the false statement carried abroad, by our enemies that steamboats cannot land passengers at this city. Steamboats can land and take passengers as usual.

To disabuse the public mind, we wish briefly to state that the statements of the reporters from this place are false. The Nauvoo Legion is in a perfect harmony; there was a considerable of it encamped about the city last week, their office is not burned; C. C. Rich, officer of the day, is still at his post, and has not left. He received the Prussian Minister but gentlemen offered a reward to any person who will bring their office. All their statements are already false.

REASON MAKES US MEN.

Nothing is better calculated to exalt men, than, in the midst of revelations, adversity, poverty, or passions, to use reason. The excitement of passion, should always be cooled by *reason*: then the 'sober second thought', brings us to ourselves, and wisdom directs the mind, not to the comfort and happiness of *one, but all*. Under such a course of meditation, we have thought it advisable to re-publish a few of the *Resolves* and *orders* of the Carthaginians, Warsaw-ites, &c. for the purpose of mobbing, plundering, murdering, and "*utter extermination*," the Latter day Saints. And a multiplicity of other belligerent and other unchristian, un-American, and very mobocratical proceedings, the following are specimens:

"*Resolved*, That we hold ourselves at all times in readiness to co-operate with our fellow-citizens in this State, Missouri, and Iowa, to exterminate, or utterly exterminate, the wicked and abominable Mormon leaders, the saviors of our troubles.

"*Resolved*, That a committee of five be appointed forthwith to notify all persons in our township suspected of being the tools of the Prophet, to leave immediately on pain of instant vengeance. And we do recommend to the inhabitants of the adjacent townships to do the same, hereby pledging ourselves to render all the assistance we may require.

"*Resolved*, That the time, in our opinion has arrived, when the adherents of Smith, as a body, should be driven from the surrounding settlements, to Nauvoo. That the Prophet and his miscreant adherents, should then be bounded at their bands, and feet, and surrendered, a war of extermination should be waged, to their entire destruction, if necessary for our own protection, and, to this end, we are now subjected."

"*Utter extermination*" and "*entire destruction*," if necessary," are so much above the profession of freemen, and *saints of christian character*, that we shall leave a candid community to judge what sort of stuff the "Warsaw Convention" of Carthage, Warsaw, and the other *allied powers* were composed of; which on the 17th and 18th of June, thus literally dealt out the destinies of the Latter day Saints. It is said somewhere that "*cowards* and violent resolutions often bring leisure repentance," but here is a case beyond *repentance*. O Americans! Freemen! O christians, what is liberty worth? O negro! O patriots! O professors! What is religion worth? Come out like men, and answer these two questions:--What is liberty and religion worth? If you cannot enjoy them? Who is so high, who is so low, who is so rich, and who is so rude, that he cannot stop one moment to blush for the sin of his country!

On the 17th of June the mob issued as follows: their

"LATEST ORDERS.—The citizens of this county are ordered to assemble at their various places of rendezvous, on Wednesday next, at 9 o'clock, precisely, when the word will be given, and then to receive general orders to co-operate as a *posse* to aid in executing Smith.

"Citizens of the adjoining State, Territory and Counties, who feel interested in bringing to justice the most depraved wretch on earth, will observe that they can join our standard, and act with the *posse comitatus* without violating our law. We are all prepared in this county to do our duty. If the Governor orders out the Militia, there will be no difficulty—if not we are determined to try the *posse comitatus*; being assured that the citizens of surrounding counties, are of Missouri and Iowa will join us. As soon as the day for a general co-operation is set, we will notify by a hand bill, all the citizens in the adjacent country."

"*Posse comitatus*"—with a vengeance! the limits of a county extended over two states and a territory, Governor or no Governor! Well, now, to sustain the constitution of the state and the constitution of the United States, to magnify the law and make it honorable, will not all honest men between the Pacific and Atlantic Oceans and adjoining Continents form a union and free the world from mobs and outlaws, that thus wantonly walk upon religious liberty—murder with impunity, as was the case at Hawn's mill in Missouri! Now is the time for honest men to she w themselves! Now is the hour to test who is for constitutional law, and who for murder and robbery. *Let patience have her perfect work.*

WARSAW NEWS.

The following mobocratic ebullition is the *latest news*, from the seat of "*appeal to arms*" and the "We are weak in this county, without ALL to effect our object", that has come to hand.

WARSAW SIGNAL.—EXTRA.

June 19, 1844.

LATEST NEWS.—The Iowa passed down (6 o'clock, Wednesday evening) and reported that she was not allowed to land her passengers at Nauvoo, the city having been declared by the prophet, under martial law.

THE PREPARATION.

Our town for the last week has been in a constant state of excitement. Business has been almost entirely suspended, and every able bodied man is under arms and almost constantly on drill.

Never did we see exhibited a more determined spirit. An injured and insulted community suffering under the deep born grievances, are determined by an appeal to arms, as a last resort, to redress wrongs that have been unsupportable.

On Monday last, about 150 men assembled in this place under the command of General Deming. The action was passed by every man, and the anxiety manifested to acquire a knowledge of military movements, is a full guarantee for the good conduct of our men in the coming emergency.

In Carthage and Green Plains, the citizens are all in arms, and as far as we can hear throughout the county every man is ready for the conflict.

We have assurances that our neighbors in Missouri and Iowa will aid us. In Clark county, Mo., we understand that many are holding themselves in readiness to march so soon as wanted. From Rushville we have just learned by express that 300 men have enlisted for the struggle. McDonough county, is all alive and ready for the word of command. From Scessgon, Iowa, we have just received intelligence by a resident of that place, that the citizens are in arms in our behalf, and only wait our call. From Keokuk and the river towns we learn that all are determined. General Stapp of the Legion, is requested to call out the militia, and hold himself in readiness.

Our position is evidently abroad, but he has gone too far to lack-out. He must not tire the mark, or run. Compromises are out of the question. The designs sent to the Governor have not been returned. If they fail to procure his interference, a day will be set forthwith, for a general rally as a *posse*, to assist the officers of justice. As soon as this is done, we will issue a handbill giving notice of the fact. Our friends in surrounding communities, who desire to aid us, will please hold themselves in readiness for this general order. When the word is given, every thing depends on promptness.

Captain Grover last week obtained from Quincy 59 muskets. Men and arms are promised from St. Louis, and other places. Everything betokens prosperity to our enterprise.

To our friends at a distance we say come! We are so weak in this county, without aid to effect our object. Come! you will be doing your God and your country a service, in aiding to rid earth of a most Heaven daring wretch.

6 o'clock, p. m.—D. W. Mathews, who was sent last Sunday to St. Louis, has returned, by the Die Vernon. He has succeeded in procuring a cannon; and has brought up a good supply of powder and balls.

Mr. Sympson and Mr. Thompson, have just returned from their trip to Quincy, and report all right, and ready.

A gentleman who conversed with Governor Ford last week, reports, that his excellency said, that he would do all he could in case Joe again defied the laws by refusing him to justice. This was before the news of our present difficulties reached him.

We expect a six pounder to-morrow night from Quincy.

9 o'clock, p. m.—We have just learned that Joe has ordered all his followers into Nauvoo. The settlements around are with all despatch obeying the order.

At 11 this a company was formed today and reported themselves in readiness for orders.

E. A. Thompson, Esq., who saw Governor Ford last week states that an order has been granted by His Excellency, to try Joe Smith by Court Martial, for unofficer like conduct.

"*Preparations for an appeal to arms!*" Internal war! Mobbing and bloodshed; and for what? any outrage upon the community, committed with impunity? No! no! verily no! But two Laws, two Posters, and two Hagbees, with a few other discontented spirits, wish to wreak vengeance on a whole community because their *community* will not be still and let them destroy them and their rights. Now really if the baser sort of men rush out in war, and murder men, women and children, for the supposed wrongs of others, they must be *thirsty for blood*. Where is common sense? where is humanity, and *where is the efficient arm of the government*, to shield the oppressed from such a tornado? Where is the power of protection? We will see what the Governor of the State, and the President of the United States will say and do, in such an important, debasing, and power-defying case of *insurrection*." If there is any virtue in the American institutions of government, now is the time to exercise it, in favor of law and liberty.

A QUESTION?

Who are the leaders of this mobocratic party? and who the instigators of the excitement in a question that we have often and repeatedly said, and sung, we never have a little leisure, we feel free to take up the subject and to answer the question.

Most of the leaders engaged in the outbreak, are men whose characters are so notorious, and whose conduct has been so infamous, that it is unnecessary for us to say any thing about them: among those is the Laws, Foster, Higbee, Chaney, Higbee, and Charles Foster. Dr. Foster and the Higbee's as debauchees and gamblers, never believe have not a parallel in this city; they have been driven from the society of this community; and so far from their being considered honorable, they have been looked upon as common disturbers of the peace, and a nuisance to society: this the records of our city, bear ample testimony of; and of this the public themselves are ready to testify.
